MEERATM
INDUSTRIES LIMITED

1000⁺⁺ Denier Series

Why 1000 Series ?

Uses of yarns has gone beyond fashion and aesthetics to more course, sensitive, functional and high strength needs. Demands from Carpets, Ropes and Technical Textile areas like Geotech, Medtech, Biotech, Spacetech, Automotive, Safety and Military are unique, unconventional with smaller production batches. At Meera we feel proud to innovate, customize and give futuristic solution to these demanding application meeting the high international standard of economics, ergonomics and energy savings.

INDUSTRIES & APPLICATIONS

CARPET

Artificial Grass
Bathmats
Car Mats
Carpet
Door Mats
High Bulk
Intermingling
Micro
Multiply
PA BCF
PP BCF
Prayer Mats

TYRE CORD

Tyre Cord

SEWING THREADS

High Tenacity
PP Fibrilliated
Sewing Thread
Sutli

NET

Agriculture Net
Baler
Cast Net
Gill Net
Handcast Net
Fishnet
PP Net
Sports Net

FASHION

Upholstery
Embroidery Weaving
Curtain
Dress Materials
Home Furnishing
Hosiery
Knitting
Suiting, Shirting

ROPES & CORDS

Braided Ropes
Cords
Dipped Cords
Mops
Ropes
Safety Ropes
Twines

TAPES

Curing Tapes
Hoses
Laces
Narrow Fabrics
Seat Belt
Strapping
Tapes
V Belt
Velcro
Webbing

COVERING

Carbon
Glass
Lycra
Zari

TECHNICAL TEXTILE

Automotive
Airbags
Aerospace
Agrotech
Buildtech
Bulletproof Jacket
Clothtech
Carbon Fibre
Defence
Hometech
Glass Fibre
Geotextile
Medical Yarns
Parachutes
Packtech
Protech
Space
Sports
Tea Bags
Technical Textile

1000⁺⁺

Denier Series

- TWISTING
- PLYING
- CABLING
- WINDING
- INTERMINGLING
- HEAT SETTING
- BULKING
- COVERING
- COATING

MEERA™

YARN TYPES

PP, PA, Polyester, Acrylic, Glass, Carbon, Aramid, HDPE, Dyneema, Elastane, Fibrillated, Non - Fibrillated, Metallic, UHMPE, Cotton, Viscose, Wool, Natural Fibres

PLY RANGE

2 ply, 3 ply, 4 ply up to 240 ply & more

DENIER RANGE

1000 - 240000 Denier

THICKNESS

Up To 6 MM

Outstanding Cost / Performance Ratio

- Energy Cost Saving Up To 40%
- Space saving up to 40% by Step Reduction
- Nearly Zero Wastage
- Energy saving spindle

Quality Highlights

- Knot less, Equal Size, Equal Length Package
- Homogeneous Tension
- Jumbo Package up to 16 KG
- High Unwinding Speed
- Individual Spindle drive
- Monitoring of the yarn path via pneumatic Differential yarn sensor
- Computer controlled electro-mechanical gear box

Productivity Highlights

- Higher Speeds Up To 10000 RPM
- Delivery Speed Up to 400 mtr/min
- Efficiency Up To 95%
- Best Quality Of Produced Yarn

Sales, Service & Support

- Fast Delivery Between 6 To 8 Weeks
- Modular Packing Reducing Setup Times
- Erection Commissioning Support
- Production & Quality Optimisation
- After Sales Service
- Spares & Consumables Supply
- Friendly Support Team

Meera Industries Limited is a renowned name in the world of textile twisting technology & machineries. Through intensive research and continuous innovation, Meera Industries has pioneered in manufacturing world class Yarn Twisting, Cabling and Continuous Heat Setting Machines.

Our Constant quest for innovation through research is not limited. We design, develop & manufacture high-tech textile machinery offering Intelligent Solutions, Operational Reliability, Quality and Economic Efficiency.

Besides, Energy Conservation, Better Productivity and Ease of Use are the goals in mind when we design machines.

AWARDS

- TMMA Research & Development Award
- TMMA Research & Development (Innovation) Award
- TMMA Special Export Award
