*Second Edition*

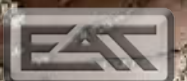

## HIGHLIGHTS IN THIS ISSUE

Mattress Ticking - Inspired by Nature

Beautiful Fashion of Africa

Noble Furniture - Noble Fabrics

Poesia & Seta

*Color Your Dinner...*

*Finest  
Tablewear*

Dear Readers!

This is the second edition of "The Art of Fabric", our magazine of unique 3-dimensional fabric simulations from many sectors of textile production.

Staging of textiles will bring the full beauty of fabrics alive. This high-end simulation software "The Art of Fabric" by EAT "The DesignScope Company" allows this virtually.

"The Art of Fabric" propels the viewer into a virtual world of fabrics not yet produced, where the fabric surface looks so realistic that it needs to be touched.

This new representation provides a fascinating new dimension of perception which usually can only be achieved from expensive photo shoots.

However, unlike photography "The Art of Fabrics" presents the observer with images of infinite depth of field.

This second edition reflects many new results of this high-end simulation software.

Enjoy!

A handwritten signature in black ink that reads "Klaus P. Lepka".

Klaus P. Lepka
