

The Ultimate Attainment

MOKSHA
THERMOPLASTICS PVT. LTD.

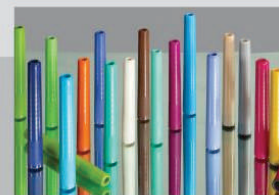

Our Product Programme :

Speed Frame Bobbins

Specialized Auto Doffing with bobbin transportation & Manual doffing :
Preparatory, Simplex & Rubbing frame Bobbins of all makes.

Ring Spinning Frame & Doubling Tubes

Speciality Highly Precise – tubes for Auto Doffer Machines
Upto 25000 rpm & for Manual doffing machines.

JST Rigorous Steam-conditioning upto 140°C

Perforated & Non Perforated carriers custom-made for High twist,
Polyester, Sewing threads and Lycra Yarn-conditioning.

Tandem (Multi-colour - Added yarn identity)

Various size & concity – Ring tubes, Cones & Cheeses
for yarn carriers' Double colour identity.

Cones and Cheeses

All sizes & concity - Cones & Cheeses :
For O/End, Jet Spinning, Twisting, Winding & Texturing.

Yarn Dyeing Perforated Cones & Cheese Upto 140°C

Single-use:

Rigid, Axially or Radially Flexible / Compressible. Used for Sale yarns;
Respect the International norm of plastics disposal.

Multiple-use:

Customized Products for various temperatures and yarns.
Exclusive quality for Polyester blends. HDPP Top & Bottom Plate solutions.

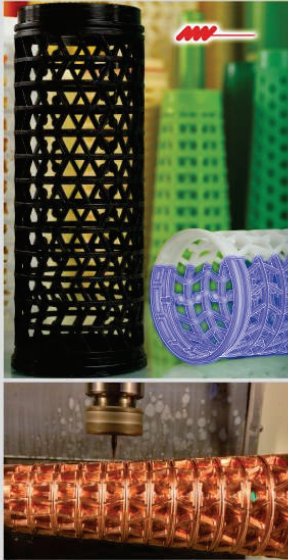

The 'Moksha' Advantage

- » **The Largest** manufacturer of Hi-tech Specialized Yarn Carriers.
- » **Innovative Design Engine** - Induction of ideas based on customer feedback & continuous learning and re-invent skills.
- » **Regular Interaction** with Spinning Machinery Manufacturers for product specifications & upgrades.
- » **Uncompromised** selection of purpose compatible complex polymers with superlative capabilities by expert Polymer chemists.
- » **Solid Model, CAD & CAM** Engineering expertise, **In-house Mould manufacturing** on CNC machines.
- » World's latest **State-of-the-art High-precision** Injection moulding facilities.
- » Shop floor managed by **enthusiastic team** having longstanding "hands-on" experience.
- » Comprehensive constant vigilance **Quality Tests** - for close tolerance manufacturing, with Destructive & Non-Destructive tests.
- » **Clock-work Auto-doff** performance, Precision balance, **Concentricity control** give enhanced efficiency.
- » Guaranteed **Timely Manufacturing, Reliability** on **Logistics**.
- » **Palette of the Widest Spectrum of colours** for identity.
- » **Export** of over 40% production.

MOKSHA
THERMOPLASTICS PVT. LTD.

*Unceasing endeavor to
"The Ultimate attainment"*

Quality Policy

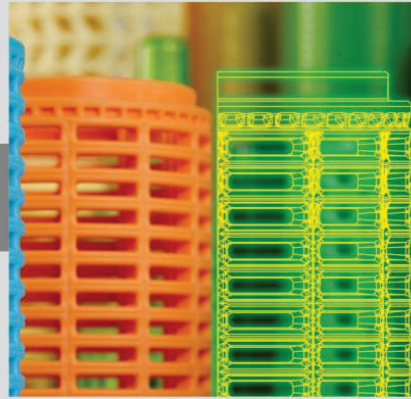

“Moksha stands for industry-focused development, Innovative new technologies & Engineered yarn carriers' of the highest possible standards ; with true timely responsiveness to each customer diverse needs. A team of highly dedicated skilled designers, engineers, polymer chemists and operational engineers who focus on manufacture of Faultless products - Continuously ! For TOTAL user satisfaction.

Injecting of State-of-the-art Technological Equipment for consistency, with a view on Energy Conservation & concern for the Environment.”

Under this maxim: 'Made by Moksha' - stands for - Our Obligation - Thorough vigilant calibrated perfectionism on the production acceptance testing - Guarantee to constant and highest quality products.

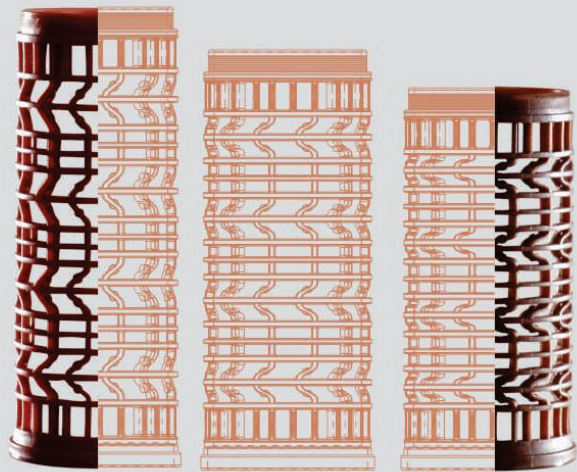

Speciality Products

Tuff Sale yarn Cone
Unparalleled Strength-Weight ratio

Vertiflex cheeses.
20% Unswerving Axial compression

Multi Filament & POY – M Tubes
With starter catch and recess for remnant removal.

'Engineered' Yarn Carriers

global presence

Clients across the globe have approved and appreciated our Product Quality
