

Your **logical** source  
for yarn carrier **solutions**

  
**MOKSHA**

[www.mokshabobbins.com](http://www.mokshabobbins.com)

Today, Moksha stands for innovative products of the highest possible quality standards. Your assurance for extensive know-how and top quality, guaranteed supplies and reliability, extensive range conforming to International Quality Standards with various technological improvements, have made us, a recognised partner.

# Moksha

- **Largest** Manufacturers of Specialised Yarn Carriers
- **Dedicated** yarn carriers company
- **Solid Model** Engineering expertise
- Expert **Designers** with complex capabilities
- Technological **Innovative** efficiency enhancing ideas
- In-house **Mould manufacturing** with CNC technology
- Selective Purpose-compatible **Superlative polymers**
- High **shape stability**, creep resistance/tensile strength
- High **Impact** strength and rigidity
- Sophisticated **Computerised production** Controls
- Conforming to **ISO Standards** for Bobbins
- Comprehensive product **Quality Testing** facilities
- Preventive, **Destructive & Non-destructive** testing
- Precision balance & **Concentricity** control for minimal vibration
- **Close tolerances** allow precise single form on spindle
- Machinery manufacturer's **approvals**
- **Export** of 40% + production
- Wide variety of **surface finishes**
- '**Recyclable**' plastics as per International Environmental norms
- Moksha **Palette of wide spectrum** of colours
- Fast **Manufacturing**, Reliability
- Guaranteed **timely logistics** management

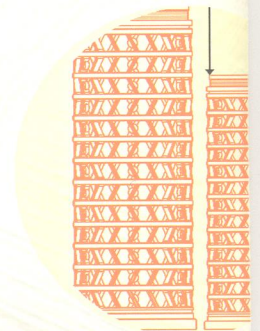

**Moksha** : The unceasing endeavor to the "Ultimate attainment"

## Quality Policy

"Manufacture of Faultless products - continuously, for Total Customer's satisfaction, with true timely responsiveness to each customers' diverse needs- with dedication of the motivated human resources.

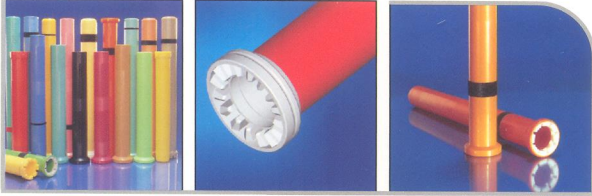

Injecting of Hi-tech Quality and Modern Technological Equipment with a view of Energy Conservation and Concern for the Environment." Under this maxim, Made by Moksha - means our obligation to constant and high product Quality - Thorough vigilant calibrated perfectionism in the acceptance testing & monitoring, which guarantees a high quality standard.

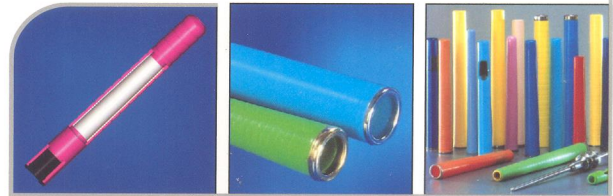

The widest, Technologically Mature & Innovative Range of Yarn Carriers

**MOKSHA**

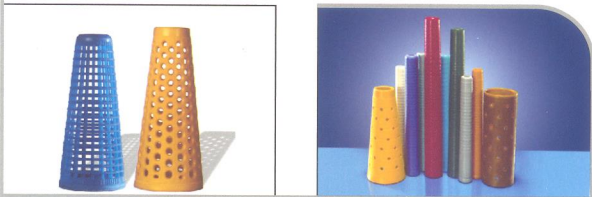

Preparatory, Simplex & Rubbing frame Bobbins for all makes of Roving frames

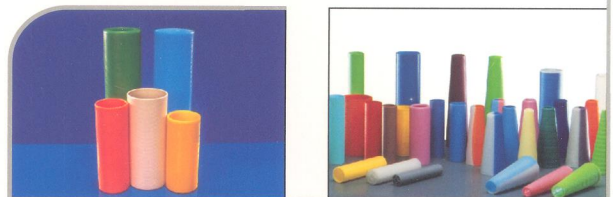

Precision Ring Spinning tubes for Manual & Auto Doffer Machines Upto 25000 rpm

Rigorous Steam-conditioning Perforated & Non-perforated Tubes, Cones & Cheeses upto 140° C.

Cones & Cheeses for O/End & Jet Spinning, Twisting, Winding & Texturising Machines

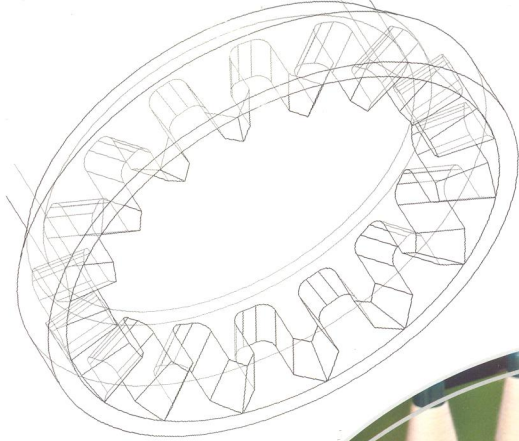

**Perforated Cones and Cheese for Yarn Dyeing upto 140°C**  
for spun, cotton, blended, sewing thread, worsted and filament yarns.

**Once-use Cones & Cheeses**  
Rigid, Compressible 'Axiflex' Axially flexible  
& Compressible 'Radiflex' Radially flexible

**Multiple-use Cones & Chesses**  
Special Non tinting Polymer Alloy  
Biconical EM-press Cones & Dyeing Spacers

We respect  
the Yarn quality

Your speeds are  
our bobbin capabilities

Our colours  
Yarn identity

Where the Yarn  
Technology Counts

Your needs,  
Our innovations

Evenness of yarn  
dyeing is our goal

At MOKSHA - Our policy revolves around a Single Mission,  
Total Customer's Satisfaction - which always comes First
