ENGINEERING

Within our facility we have modern CNC machines on which we manufacture our own parts. The latest technical equipment ensures us of competitive production at the highest level.

Our design department is equipped with the latest version AUTOCAD software. Standard are all parts drawn in 3D.

The programming of our CNC machining centres is done with EDGE CAM software.

Don't hesitate to contact us for your special inquiries. We can supply parts that are often hard to obtain.

We are specialized in shipping our high quality parts all over the world. Our service will not stop after the goods left our warehouse, we offer a Door to Door service, world wide! A perfect packing is naturally essential. Our shipment will go by first class couriers like TNT, DHL, UPS or FedEx. And of course we do have good contacts with all major air freight and sea line companies.

All (parts)numbers mentioned in this brochure have no relation to any manufacture and are only for comparison.
